

[Download Award Tracker](#)

NOTICE: Support for Windows XP and Vista has been discontinued. While Award Tracker may continue to work with these operating systems trouble reports for operators using them, an extended effort to fix the problems will not be performed unless it can be duplicated on an officially supported version of Microsoft Windows.

With Award Tracker, you no longer need a special logging program for your favorite organization to keep track of their awards and endorsements. Award Tracker processes several awards and endorsements for 10-10 International, PODXS 070 Club, OMISS, European PSK Club, Radio Amateurs of Canada, CQ, IOTA and others upon request. Logging programs natively supported include Ham Radio Deluxe, ACLog, PSK Express, DXLab, MicroLog, XMLog, QSO Manager, Log4OM, and Logger32 (by using ADIF audit trail). You can also import an ADIF file if your log program is not listed.

If you discover any issues or want to submit a feature request simply send me an email. See <https://www.grz.com/db/W5DJT> for email address.

Thank you, W5DJT
